

Environmental Impact Assessment Report

Volume 3 of 3

Project Eider Rock – Proposed
Petroleum Refinery and Marine
Terminal in Saint John, New
Brunswick

IRVING OIL COMPANY, LIMITED
SAINT JOHN, NEW BRUNSWICK

PROJECT NO. 1013263.

FINAL EIA REPORT

PROJECT NO. 1013263.

REPORT TO Minister of Environment for the Province of New Brunswick,
Canadian Environmental Assessment Agency, Fisheries and
Oceans Canada, Transport Canada, and Environment Canada

ON Final EIA Report

FOR Project Eider Rock: Proposed Petroleum Refinery and Marine
Terminal in Saint John, New Brunswick

SUBMITTED ON BEHALF OF Irving Oil Company, Limited
10 Sydney Street
Saint John, NB, E2L 4K1
Tel: (506) 202-2000 Fax: (506) 202-7002

April 30, 2009

Jacques Whitford Stantec Limited
130 Somerset Street
Saint John, New Brunswick E2K 2X4

Phone: 506-634-2185

Fax: 506-634-8104

Table of Contents

VOLUME 3: Socio-economic Assessment

Chapter 14: Commercial Fisheries

14.0 COMMERCIAL FISHERIES.....	14-1
14.1 SCOPE OF ASSESSMENT.....	14-1
14.1.1 Regulatory Setting	14-1
14.1.2 Issues and Concerns Identified During Public, Stakeholder, and Aboriginal Engagement	14-2
14.1.3 Selection of Environmental Effect	14-4
14.1.4 Selection of Measurable Parameters	14-4
14.1.5 Temporal Boundaries.....	14-4
14.1.6 Spatial Boundaries.....	14-5
14.1.7 Administrative and Technical Boundaries	14-5
14.1.8 Residual Environmental Effects Rating Criteria.....	14-6
14.2 EXISTING CONDITIONS.....	14-15
14.3 POTENTIAL PROJECT-VEC INTERACTIONS.....	14-17
14.4 MARINE TERMINAL AND OTHER MARINE-BASED INFRASTRUCTURE ENVIRONMENTAL EFFECTS ASSESSMENT	14-19
14.4.1 Assessment of Project-Related Environmental Effects.....	14-22
14.4.1.1 Existing Conditions for Change to Net Income of Local Commercial Fishermen	14-22
14.4.1.2 Project Environmental Effects Mechanisms for Change to Net Income of Local Commercial Fishermen	14-22
14.4.1.3 Mitigation for Change to Net Income of Local Commercial Fishermen....	14-23
14.4.1.4 Characterization of Residual Project Environmental Effects for Change to Net Income of Local Commercial Fishermen.....	14-23
14.5 ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS	14-24
14.6 FOLLOW-UP AND MONITORING	14-29

Chapter 15: Labour and Economy

15.0 LABOUR AND ECONOMY.....	15-1
15.1 SCOPE OF ASSESSMENT.....	15-2
15.1.1 Regulatory Setting	15-2
15.1.2 Issues and Concerns Identified During Public and Stakeholder Engagement	15-2
15.1.3 Selection of Environmental Effects.....	15-3
15.1.4 Selection of Measurable Parameters	15-4
15.1.5 Temporal Boundaries.....	15-4
15.1.6 Spatial Boundaries.....	15-5
15.1.7 Administrative and Technical Boundaries	15-5

FINAL EIA REPORT

15.1.8	Residual Environmental Effects Rating Criteria.....	15-6
15.2	EXISTING CONDITIONS.....	15-6
15.2.1	Population.....	15-6
15.2.1.1	Saint John CMA	15-6
15.2.1.2	City of Saint John	15-6
15.2.2	The Economy	15-9
15.2.2.1	The New Brunswick Economy	15-9
15.2.2.2	The Economy of the Saint John CMA.....	15-9
15.2.3	Labour Force	15-10
15.2.4	Employment and Income	15-10
15.2.4.1	Saint John CMA	15-10
15.2.4.2	Poverty.....	15-10
15.3	POTENTIAL PROJECT-VEC INTERACTIONS.....	15-11
15.3.1	Change in Economy	15-11
15.3.2	Change in Labour	15-12
15.4	ENVIRONMENTAL EFFECTS ASSESSMENT	15-13
15.4.1	Assessment of Project-Related Environmental Effects.....	15-16
15.4.1.1	Change in Economy	15-16
15.4.1.1.1	Existing Conditions for Change in Economy	15-16
15.4.1.1.2	Project Environmental Effects Mechanisms for Change in Economy	15-17
15.4.1.1.3	Mitigation for Change in Economy	15-18
15.4.1.1.4	Characterization of Residual Project Environmental Effects for Change in Economy	15-18
15.4.1.2	Change in Labour.....	15-20
15.4.1.2.1	Existing Conditions for Change in Labour	15-21
15.4.1.2.2	Project Environmental Effects Mechanisms for Change in Labour	15-22
15.4.1.2.3	Mitigation for Change in Labour	15-23
15.4.1.2.4	Characterization of Residual Project Environmental Effects for Change in Labour	15-24
15.5	ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS	15-26
15.5.1	Change in Economy	15-30
15.5.1.1	Project Cumulative Environmental Effect Mechanisms for Change in Economy	15-30
15.5.1.2	Mitigation of Cumulative Environmental Effect for Change in Economy ..	15-31
15.5.1.3	Characterization of Residual Cumulative Environmental Effects for Change in Economy	15-31
15.5.2	Change in Labour	15-31
15.5.2.1	Project Cumulative Environmental Effect Mechanisms for Change in Labour	15-31
15.5.2.2	Mitigation of Cumulative Environmental Effect for Change in Labour.....	15-32
15.5.2.3	Characterization of Residual Cumulative Environmental Effects for Change in Labour.....	15-33
15.6	FOLLOW-UP AND MONITORING	15-34

Chapter 16: Community Services and Infrastructure

16.0	COMMUNITY SERVICES AND INFRASTRUCTURE	16-1
16.1	SCOPE OF ASSESSMENT	16-2
16.1.1	Regulatory Setting	16-2
16.1.2	Issues and Concerns Identified During Public and Stakeholder Engagement	16-3
16.1.3	Selection of Environmental Effects.....	16-4
16.1.4	Selection of Measurable Parameters	16-5
16.1.5	Temporal Boundaries.....	16-6
16.1.6	Spatial Boundaries.....	16-6
16.1.7	Administrative and Technical Boundaries	16-7
16.1.8	Residual Environmental Effects Rating Criteria.....	16-7
16.2	EXISTING CONDITIONS.....	16-7
16.3	POTENTIAL PROJECT-VEC INTERACTIONS.....	16-12
16.3.1	Potential Interactions with a Change in the Accommodation Market	16-13
16.3.2	Potential Interactions with a Change in the Level of Service from Community Services and Public Infrastructure.....	16-14
16.4	ENVIRONMENTAL EFFECTS ASSESSMENT	16-16
16.4.1	Assessment of Project-Related Environmental Effects.....	16-19
16.4.1.1	Change in the Accommodation Market.....	16-19
16.4.1.1.1	Existing Conditions for Change in the Accommodation Market	16-19
16.4.1.1.2	Project Environmental Effects Mechanisms for Change in the Accommodation Market	16-22
16.4.1.1.3	Mitigation for Change in the Accommodation Market	16-22
16.4.1.1.4	Characterization of Residual Project Environmental Effects for Change in the Accommodation Market	16-23
16.4.1.2	Change in the Level of Service from Community Services and Public Infrastructure	16-24
16.4.1.2.1	Existing Conditions for Change in the Level of Service from Community Services and Public Infrastructure.....	16-25
16.4.1.2.2	Project Environmental Effects Mechanisms for Change in the Level of Service from Community Services and Public Infrastructure	16-27
16.4.1.2.3	Mitigation for Change in the Level of Service from Community Services and Public Infrastructure	16-28
16.4.1.2.4	Characterization of Residual Project Environmental Effects for Change in the Level of Service from Community Services and Public Infrastructure.....	16-29
16.5	ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS	16-31
16.5.1	Change in the Accommodation Market	16-37
16.5.1.1	Project Cumulative Environmental Effect Mechanisms for Change in the Accommodation Market.....	16-37
16.5.1.2	Mitigation of Cumulative Environmental Effects for Change in the Accommodation Market.....	16-38

16.5.1.2.1	Characterization of Residual Cumulative Environmental Effects for Change in the Accommodation Market	16-38
16.5.2	Change in the Level of Service from Community Services and Public Infrastructure	16-39
16.5.2.1	Project Cumulative Environmental Effect Mechanisms for Change in the Level of Service from Community Services and Public Infrastructure	16-39
16.5.2.2	Mitigation of Cumulative Environmental Effect for Change in the Level of Service from Community Services and Public Infrastructure.....	16-40
16.5.2.3	Characterization of Residual Cumulative Environmental Effects for Change in the Level of Service from Community Services and Public Infrastructure	16-41
16.6	FOLLOW-UP AND MONITORING	16-42

Chapter 17: Land Use

17.0	LAND USE.....	17-1
17.1	SCOPE OF ASSESSMENT.....	17-2
17.1.1	Regulatory Setting	17-2
17.1.2	Issues and Concerns Identified During Public and Stakeholder Engagement	17-2
17.1.3	Selection of Environmental Effect	17-3
17.1.4	Selection of Measurable Parameters	17-4
17.1.5	Temporal Boundaries.....	17-4
17.1.6	Spatial Boundaries.....	17-5
17.1.7	Administrative and Technical Boundaries	17-5
17.1.8	Residual Environmental Effects Rating Criteria.....	17-6
17.2	EXISTING CONDITIONS.....	17-6
17.3	POTENTIAL PROJECT-VEC INTERACTIONS.....	17-10
17.4	ENVIRONMENTAL EFFECTS ASSESSMENT	17-14
17.4.1	Assessment of Project-Related Environmental Effects.....	17-16
17.4.1.1	Existing Conditions for Change in Land Use.....	17-16
17.4.1.2	Project Environmental Effects Mechanisms for Change in Land Use.....	17-18
17.4.1.3	Mitigation for Change in Land Use.....	17-18
17.4.1.4	Characterization of Residual Project Environmental Effects for Change in Land Use.....	17-19
17.5	ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS	17-21
17.5.1	Project Cumulative Environmental Effect Mechanisms for Change in Land Use ...	17-25
17.5.2	Mitigation of Cumulative Environmental Effects for Change in Land Use	17-26
17.5.3	Characterization of Residual Cumulative Environmental Effects for Change in Land Use	17-27
17.6	FOLLOW-UP AND MONITORING	17-27

Chapter 18: Current Use of Land and Resources for Traditional Purposes by Aboriginal Persons

18.0	CURRENT USE OF LAND AND RESOURCES FOR TRADITIONAL PURPOSES BY ABORIGINAL PERSONS	18-1
18.1	SCOPE OF ASSESSMENT	18-2
18.1.1	Regulatory Setting	18-2
18.1.2	Issues and Concerns Identified During Aboriginal, Public and Stakeholder Engagement	18-2
18.1.3	Selection of Environmental Effect	18-3
18.1.4	Selection of Measurable Parameters	18-4
18.1.5	Temporal Boundaries.....	18-4
18.1.6	Spatial Boundaries.....	18-4
18.1.7	Administrative and Technical Boundaries	18-5
18.1.8	Residual Environmental Effects Rating Criteria.....	18-6
18.2	EXISTING CONDITIONS.....	18-9
18.2.1	Land-Based Existing Conditions	18-11
18.2.2	Marine-Based Existing Conditions	18-11
18.3	POTENTIAL PROJECT-VEC INTERACTIONS.....	18-12
18.3.1	Potential Interactions Between the Petroleum Refinery and Other Land-Based Infrastructure and Current Use of Land and Resources for Traditional Purposes by Aboriginal Persons.....	18-13
18.3.2	Potential Interactions Between the Marine Terminal and Other Marine-Based Infrastructure and Current Use of Land and Resources for Traditional Purposes by Aboriginal Persons.....	18-13
18.4	MARINE TERMINAL AND OTHER MARINE-BASED INFRASTRUCTURE ENVIRONMENTAL EFFECTS ASSESSMENT	18-14
18.4.1	Assessment of Project-Related Environmental Effects.....	18-16
18.4.1.1	Determination of Significance	18-17
18.5	ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS	18-17
18.5.1	Determination of Significance	18-18
18.6	FOLLOW-UP AND MONITORING	18-18
18.7	SUMMARY	18-19

Chapter 19: Heritage and Archaeological Resources

19.0	HERITAGE AND ARCHAEOLOGICAL RESOURCES.....	19-1
19.1	SCOPE OF ASSESSMENT.....	19-2
19.1.1	Regulatory Setting	19-2
19.1.2	Issues and Concerns Identified During Regulatory, Public, Stakeholder, and Aboriginal Engagement.....	19-2
19.1.3	Selection of Environmental Effect	19-5
19.1.4	Selection of Measurable Parameters	19-5

FINAL EIA REPORT

19.1.5	Temporal Boundaries.....	19-5
19.1.6	Spatial Boundaries.....	19-6
19.1.7	Administrative and Technical Boundaries	19-6
19.1.8	Residual Environmental Effects Rating Criteria.....	19-8
19.2	EXISTING CONDITIONS.....	19-8
19.2.1	Land-Based Existing Conditions	19-8
19.2.1.1	Overview	19-8
19.2.1.1.1	Built Heritage Resources	19-8
19.2.1.1.2	Archaeological Resources	19-9
19.2.1.2	Existing Knowledge from Previous Studies.....	19-9
19.2.1.2.1	Built Heritage Resources	19-9
19.2.1.2.2	Archaeological Resources	19-10
19.2.1.3	Project-Related Heritage Resource Studies	19-10
19.2.1.3.1	Built Heritage Resources	19-10
19.2.1.3.2	Archaeological Resources	19-11
19.2.1.4	Paleontology	19-14
19.2.1.5	Summary.....	19-14
19.2.2	Marine-Based Existing Conditions	19-14
19.3	POTENTIAL PROJECT-VEC INTERACTIONS.....	19-19
19.4	PETROLEUM REFINERY AND OTHER LAND-BASED INFRASTRUCTURE ENVIRONMENTAL EFFECTS ASSESSMENT	19-22
19.4.1	Assessment of Project-Related Environmental Effects.....	19-22
19.5	ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS	19-27
19.5.1	Determination of Significance	19-28
19.5.1.1	Project-Related Environmental Effects	19-28
19.5.1.2	Cumulative Environmental Effects.....	19-29
19.6	FOLLOW-UP AND MONITORING	19-29
19.7	SUMMARY	19-29

Chapter 20: Land-Based Transportation

20.0	LAND-BASED TRANSPORTATION	20-1
20.1	SCOPE OF ASSESSMENT.....	20-1
20.1.1	Regulatory Setting	20-2
20.1.2	Issues and Concerns Identified During Public, Stakeholder, and Aboriginal Engagement	20-2
20.1.3	Selection of Environmental Effects.....	20-2
20.1.4	Selection of Measurable Parameters	20-3
20.1.5	Temporal Boundaries.....	20-3
20.1.6	Spatial Boundaries.....	20-4
20.1.7	Administrative and Technical Boundaries	20-4
20.1.8	Residual Environmental Effects Rating Criteria.....	20-10
20.2	EXISTING CONDITIONS.....	20-10

FINAL EIA REPORT

20.2.1	Road.....	20-11
20.2.1.1	Road Network Infrastructure.....	20-11
20.2.1.2	Traffic Volumes and Level of Service (LOS).....	20-18
20.2.1.3	Traffic Safety.....	20-20
20.2.2	Rail.....	20-20
20.3	POTENTIAL PROJECT-VEC INTERACTIONS.....	20-27
20.4	PETROLEUM REFINERY AND OTHER LAND-BASED INFRASTRUCTURE ENVIRONMENTAL EFFECTS ASSESSMENT.....	20-29
20.4.1	Assessment of Project-Related Environmental Effects.....	20-32
20.5	ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS.....	20-37
20.6	FOLLOW-UP AND MONITORING.....	20-38

Chapter 21: Marine Vessel Traffic and Navigation

21.0	MARINE VESSEL TRAFFIC AND NAVIGATION.....	21-1
21.1	SCOPE OF ASSESSMENT.....	21-1
21.1.1	Regulatory Setting.....	21-1
21.1.2	Issues and Concerns Identified During Public and Stakeholder Engagement.....	21-2
21.1.3	Selection of Environmental Effects.....	21-3
21.1.4	Selection of Measurable Parameters.....	21-4
21.1.5	Temporal Boundaries.....	21-4
21.1.6	Spatial Boundaries.....	21-5
21.1.7	Administrative and Technical Boundaries.....	21-5
21.1.8	Residual Environmental Effects Rating Criteria.....	21-6
21.2	EXISTING CONDITIONS.....	21-6
21.3	POTENTIAL PROJECT-VEC INTERACTIONS.....	21-13
21.3.1	Potential Interactions Between the Marine Terminal and Other Marine-Based Infrastructure with Marine Vessel Traffic and Navigation.....	21-15
21.4	MARINE TERMINAL AND OTHER MARINE-BASED INFRASTRUCTURE ENVIRONMENTAL EFFECTS ASSESSMENT.....	21-16
21.4.1	Assessment of Project-Related Environmental Effects.....	21-18
21.4.1.1	Determination of Significance.....	21-20
21.5	ASSESSMENT OF CUMULATIVE ENVIRONMENTAL EFFECTS.....	21-20
21.5.1	Determination of Significance.....	21-23
21.6	FOLLOW-UP AND MONITORING.....	21-23
21.7	SUMMARY.....	21-24

Chapter 22: Effects of the Environment

22.0	EFFECTS OF THE ENVIRONMENT ON THE PROJECT.....	22-1
-------------	---	-------------

22.1 ENVIRONMENTAL ATTRIBUTES	22-1
22.2 SELECTION OF EFFECTS	22-2
22.3 ENVIRONMENTAL ASSESSMENT BOUNDARIES.....	22-3
22.3.1 Spatial Boundaries.....	22-3
22.3.2 Temporal Boundaries.....	22-3
22.4 RESIDUAL EFFECTS RATING CRITERIA	22-3
22.5 EFFECTS ANALYSIS	22-4
22.5.1 Effects of Climate on the Project.....	22-5
22.5.1.1 Existing Conditions: Climatological Background (1971 to 2000)	22-6
22.5.1.1.1 Temperature and Precipitation.....	22-6
22.5.1.1.2 Fog.....	22-7
22.5.1.1.3 Wind and Sea Spray.....	22-7
22.5.1.1.4 Severe Weather Events.....	22-8
22.5.1.1.5 Tidal Conditions.....	22-9
22.5.1.1.6 Storm Surges and Waves.....	22-9
22.5.1.2 Climate Change.....	22-10
22.5.1.2.1 Sea Level Rise and Storm Surges	22-12
22.5.1.3 Assessment of Effects of Climate on the Project	22-13
22.5.1.3.1 Effects of Climate on Construction.....	22-14
22.5.1.3.2 Effects of Climate on Operation	22-15
22.5.2 Effects of Seismic Activity on the Project	22-18
22.5.3 Effects of Acid Rock Drainage on the Project.....	22-18
22.5.4 Effects of Acid Rain/Acid Fog on the Project.....	22-19
22.5.5 Effects of Forest Fires on the Project.....	22-19
22.6 DETERMINATION OF SIGNIFICANCE.....	22-21

Chapter 23: Accidents, Malfunctions and Unplanned Events

23.0 ACCIDENTS, MALFUNCTIONS, AND UNPLANNED EVENTS	23-1
23.1 PROCESS MALFUNCTIONS RESULTING IN EMISSIONS TO THE ATMOSPHERE.....	23-7
23.1.1 Description of Scenarios.....	23-7
23.1.1.1 Loss of a Tail Gas Treatment Unit	23-9
23.1.1.2 Hydrocracker Unit (HCU) Depressurization	23-12
23.1.1.2.1 Air Contaminant Emissions.....	23-12
23.1.1.2.2 Sound Emissions.....	23-13
23.1.1.3 Total Power Failure	23-15
23.1.1.4 Loss of a Vapour Recovery Unit.....	23-16
23.1.2 Environmental Effects Assessment.....	23-18
23.1.2.1 Atmospheric Environment	23-20
23.1.2.2 Health and Safety.....	23-22
23.1.2.3 Land Use.....	23-27
23.1.3 Determination of Significance	23-28
23.2 FIRE OR EXPLOSION	23-29

FINAL EIA REPORT

23.2.1	Description of Scenarios	23-30
23.2.1.1	Fire or Explosion from a Tank.....	23-32
23.2.1.2	Fire or Explosion in a Process Unit.....	23-32
23.2.1.3	Fire or Explosion from a Hydrocarbon Pipeline.....	23-32
23.2.2	Environmental Effects Assessment.....	23-33
23.2.2.1	Atmospheric Environment	23-36
23.2.2.2	Health and Safety.....	23-37
23.2.2.3	Freshwater Aquatic Environment.....	23-38
23.2.2.4	Terrestrial Environment	23-39
23.2.2.5	Land Use.....	23-40
23.2.3	Determination of Significance	23-41
23.3	LAND-BASED HAZARDOUS MATERIAL SPILL	23-41
23.3.1	Description of Scenarios	23-41
23.3.1.1	Spill or Leak from Pipeline Rupture	23-42
23.3.1.2	Equipment Spill	23-42
23.3.1.3	Tank Leak or Rupture.....	23-42
23.3.2	Environmental Effects Assessment.....	23-42
23.3.2.1	Freshwater Aquatic Environment.....	23-44
23.3.2.1.1	Determination of Significance	23-46
23.4	LOSS OF CONTAINMENT	23-46
23.4.1	Description of Scenarios	23-47
23.4.1.1	Failure of Erosion and Sedimentation Control Measures	23-47
23.4.1.2	Breach of Secondary Containment for Tanks	23-47
23.4.1.3	Breach of Wastewater Treatment Systems.....	23-47
23.4.2	Environmental Effects Assessment.....	23-48
23.4.2.1	Freshwater Aquatic Environment.....	23-49
23.4.2.1.1	Determination of Significance	23-51
23.5	HYDROCARBON SPILL IN THE MARINE ENVIRONMENT.....	23-51
23.5.1	Spill Probability	23-53
23.5.1.1	Worldwide Spill History.....	23-53
23.5.1.1.1	Large Spill Frequency.....	23-53
23.5.1.1.2	Recent Trends	23-56
23.5.1.1.3	Small and Medium Spills.....	23-57
23.5.1.2	Spill History for the Canaport Marine Terminal	23-57
23.5.1.2.1	Spill Probability Predictions for the Project.....	23-59
23.5.2	Spill Fate and Trajectory Modelling.....	23-59
23.5.2.1	Model Parameters	23-60
23.5.2.2	Spill Locations	23-61
23.5.2.3	Diesel Spills.....	23-62
23.5.2.4	Heavy Crude Oil Spills.....	23-63
23.5.2.4.1	Spill Trajectories	23-64
23.5.2.4.2	Spill Trajectories – Marine Terminal.....	23-64
23.5.2.4.3	Spill Trajectories – Anchorage, Shipping Lane Approach to Saint John, and Existing Canaport SBM	23-70
23.5.2.4.4	Spill Trajectories – Vicinity of Brier Island	23-71
23.5.3	Environmental Effects Assessment.....	23-78

FINAL EIA REPORT

23.5.3.1	Considerations for Assessing the Environmental Effects of Oil Spills	23-78
23.5.3.2	Interactions Between VECs and a Hydrocarbon Spill in the Marine Environment	23-79
23.5.3.3	Wetland Environment	23-81
23.5.3.4	Marine Environment	23-82
23.5.3.5	Commercial Fisheries	23-85
23.5.3.6	Land Use	23-86
23.5.3.7	Current Use of Land and Resources for Traditional Purposes by Aboriginal Persons	23-86
23.5.4	Determination of Significance	23-86
23.6	VESSEL ACCIDENT	23-87
23.6.1	Description of Scenarios	23-88
23.6.1.1	Collision with Marine Species at Risk (SAR) or Species of Conservation Concern (SOCC)	23-88
23.6.1.2	Vessel Grounding	23-89
23.6.1.3	Ship to Ship Collision	23-89
23.6.1.4	Damage to Commercial Fishing Gear	23-89
23.6.2	Environmental Effects Assessment	23-89
23.6.2.1	Marine Environment	23-92
23.6.2.2	Commercial Fisheries, and Current Use of Land and Resources for Traditional Purposes by Aboriginal Persons	23-93
23.6.3	Determination of Significance	23-95
23.7	VEHICLE ACCIDENT	23-96
23.7.1	Description of Scenarios	23-96
23.7.1.1	Vehicle to Vehicle Collision	23-96
23.7.1.2	Pedestrian Strike	23-96
23.7.1.3	Wildlife Strike	23-97
23.7.2	Environmental Effects Assessment	23-97
23.7.2.1	Land-Based Transportation	23-99
23.7.2.1.1	Vehicle to Vehicle Collision	23-99
23.7.2.1.2	Pedestrian Strike	23-100
23.7.2.1.3	Wildlife Strike	23-101
23.7.3	Determination of Significance	23-101
23.8	WORKER ACCIDENT	23-101
23.8.1	Environmental Effects Assessment	23-102
23.8.1.1	Health and Safety	23-103
23.8.2	Determination of Significance	23-104
23.9	PROJECT-CAUSED FOREST FIRE	23-104
23.9.1	Description of Scenarios	23-104
23.9.2	Environmental Effects Assessment	23-105
23.9.2.1	Atmospheric Environment	23-107
23.9.2.2	Terrestrial Environment	23-107
23.9.2.3	Land Use	23-108
23.9.3	Determination of Significance	23-108
23.10	INTRODUCTION OF INVASIVE SPECIES	23-109

FINAL EIA REPORT

23.10.1 Description of Scenarios 23-109

 23.10.1.1 Introduction of Invasive Species in the Terrestrial, Wetland or
 Freshwater Aquatic Environments 23-109

 23.10.1.2 Introduction of Invasive Species in the Marine Environment..... 23-109

23.10.2 Environmental Effects Assessment..... 23-110

 23.10.2.1 Marine Environment 23-112

 23.10.2.1.1 Determination of Significance 23-114

23.11 WILDLIFE ENCOUNTER 23-115

 23.11.1 Description of Scenarios 23-115

 23.11.2 Environmental Effects Assessment..... 23-115

 23.11.2.1 Determination of Significance 23-116

23.12 DISCOVERY OF A HERITAGE OR ARCHAEOLOGICAL RESOURCE 23-117

 23.12.1 Description of Scenarios 23-117

 23.12.2 Environmental Effects Assessment..... 23-117

 23.12.2.1 Heritage and Archaeological Resources..... 23-118

 23.12.3 Determination of Significance 23-120

Chapter 24: Closing

24.0 CONCLUSION AND CLOSING 24-1

Chapter 25: Reference List

25.0 REFERENCES..... 25-1

 25.1 CITED LITERATURE 25-1

 25.2 INTERNET SITES..... 25-30

 25.3 PERSONAL COMMUNICATIONS..... 25-38
